Performance starts here

The Audi RS 6 Avant is defined by athletic precision, striking design, and advanced technology. Every detail, from its powerful stance to its customisable interior, is engineered to deliver a driving experience like no other. This is a car built to perform and to be noticed while doing so.

Designed with intention

From the moment you see it, the distinctive Avant silhouette makes a statement. RS-specific design details, such as black inserts and a rear diffuser, give the car an edge that stands out with subtlety. Oval chrome tailpipes and a panoramic sunroof complete the look.

Performance
meets purpose

Performance

From the very first drive, the Audi RS 6 Avant captivates with its blend of performance and everyday practicality. With a roaring 441 kW V8 engine and dynamic quattro all-wheel drive, it offers serious muscle.

Its spacious interior and generous luggage capacity make it the perfect partner for business, pleasure, or anything in between.

The RS 6 Avant brings performance to a new level. Its 4.0-litre V8 twin-turbo engine delivers 441 kW and 800 Nm of torque, all channelled through an eight-speed Tiptronic gearbox and Quattro all-wheel drive.

The RS adaptive air suspension reacts in real time, ensuring agility, precision and comfort whether you are taking corners or cruising open roads.

Where the drive begins

Step inside and the performance continues. The RS 6 Avant cockpit offers control at your fingertips. RS displays in the Audi virtual cockpit show real-time performance data, from G forces to tyre pressure, all within reach.

Create your atmosphere

Customise the cabin with the optional Audi RS 6 Ambient Lighting Package Plus. Choose from 30 colours and adjust surface and contour lighting to suit the moment. Easily

change colours, brightness and combinations through the MMI infotainment system.

Presence on the road

HD Matrix LED headlamps illuminate every journey, enhanced by Audi Laser Light for superior visibility at greater distances. A dynamic light design with integrated turn signals adds a striking visual signature. The headlamp washer system ensures optimal performance in all conditions. LED entry lighting with an

RSperformance projection welcomes you, while the LED rear combination lamps with dynamic turn signals provide a seamless, modern finish. A separate daytime running light enhances both safety and presence on the road.

Connection when you need it

Stay informed, entertained, and in control with the full suite of Audi connect services, standard in the new RS 6 Avant. From live traffic updates to music streaming and weather integration, every drive becomes more connected.

Enveloped in sound

Every drive becomes an immersive sound experience powered by the Bang & Olufsen 3D Premium Sound System. Engineered to deliver clarity and depth, the system features 15 precisely placed loudspeakers and a 680-watt amplifier, creating a concert-like atmosphere throughout the cabin.

The system adapts in real time to driving conditions, ensuring balanced, high-fidelity sound.

Every stitch, considered

The Audi RS 6 surrounds you with comfort and luxury. Standard seats include customisable options such as Valcona leather, honeycomb stitching and RS sports seats that echo RS heritage.

Grounded in power

A striking selection of 22-inch alloy wheel designs complements the RS 6's powerful presence. Choose from the precision-crafted 5-V-spoke structure in Matte Titanium Grey, the trapezoidal design in a diamond turned finish, or the sleek black variant for an aggressive edge.

For greater distinction, the 5-spoke Y style wheels are available in Matte Grey, Metallic Black or the head-turning Matte Neodymium Gold finish.

Make it your own

Nardo Gray

Mythos Black

Glacier White

Ascari Blue

Grenadine Red

Daytona Gray

Sebring Black

Choose from an exclusive palette of dynamic, performance-inspired colours. From the sleek sophistication of Glacier White and Mythos Black to the bold presence of Ascari Blue, Grenadine Red and the distinctive Sebring Black, each finish accentuates the RS 6's aerodynamic form.

Looking out for you, wherever you go.

Automatic emergency calls and Remote Access features add peace of mind wherever the road takes you. Because safety matters most.

*Audi connect is not supported outside of South Africa

Precision made personal

Individuality is part of the RS 6's DNA. With Audi exclusive, that spirit goes further. Choose bold custom paint finishes, distinctive interior trims and handcrafted leather details. Turn precision engineering into personal expression and create an RS 6 that looks, feels and performs like no other.

Standard Equipment

Wheels

- > Anti-theft wheel bolts and loose wheel warning
